Mrs. Russell

I really sincerely
wish I could continue
with this English class
forever. We're disappointed
on many things. But it's
a pleasure to real guide you
a tremendous teacher, and
someone I can talk to seriously.
I'll remember you. May the

• Foreword •

Our past four years at Niskayuna may be summarized in a single word—growth. In September, 1962, our exuberant class entered the school, fired with energy, effort and enthusiasm. Remember that first day at the crossroads when we looked wishfully at the "mighty" seniors, and thought the building was so large that we would never find our way around? Now we find that everyone is smaller than we are, and we often feel that the ends of the school are but a few quick steps from any location.

In these four years the student body and faculty have increased greatly, just as each student in that freshman class has grown in mind and body. As a class, we produced outstanding athletes, scored high on national education tests, performed well in the arts, and served our community willingly. We have matured in our years at NHS and have proven our worth as a class. We now stand at a new crossroad, only this time the people whom we look at will perhaps not be as eager to help us, nor are the halls which we look down so sheltered. Yet we still have the same energy, effort and enthusiasm. We hope that each individual will be as successful in future years as they have been collectively as a class.

Crossroads '66 would like to recapture these years of growth in each individual, and to provide a reminder of the many happy days at NHS. For these reasons, we, the staff, give you *Crossroads '66*.

Mrs. Russell,
This was the
most wonderful
English class this
year. I hope you
have a wonderful
summer, and I hope
to see you on the golf
course after. Have fun
and I hope to see you next
year. Good luck on your golf
Cindy

To Mrs. Russell,
To be truthful I was
very fortunate to have
such a wonderful
English teacher. I hope
I have you for all my years here at NHS.
Remember you mean a lot to me. Thank you
just as much for all my years here at NHS.
You helped me this year. Your Student ("Maggi")
P.S. Ever since you gave me
the name Maggi everyone is
calling me Maggi. I'm bringing to
like the name Maggi. Thanks!

Dedication: Crossroads '66

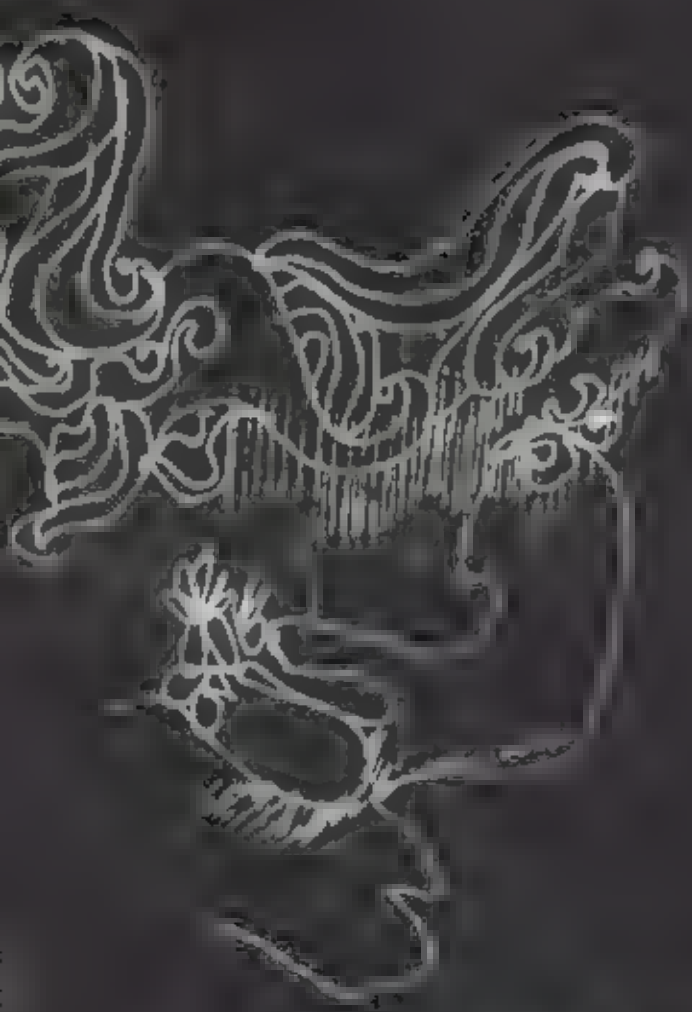

... How do you say "thanks" to a really great guy? A coach who keeps the team on an even keel when they are on the win—and doesn't pass the blame when things aren't quite so good.

How do you say "thanks" to someone who sets an example and lives by that example himself ... someone who is for the team all the way ... someone who makes you be proud of being part of it all—no matter how large or how small that part may be.

Thanks, Mr. Boothe—thanks for this year and all the good years to come. You have contributed leadership to Niskayuna in another kind of growth—growth in sportsmanship—and therefore, it is in appreciation that we dedicate this yearbook to you.

A Photographic Essay

We came as
freshmen ...

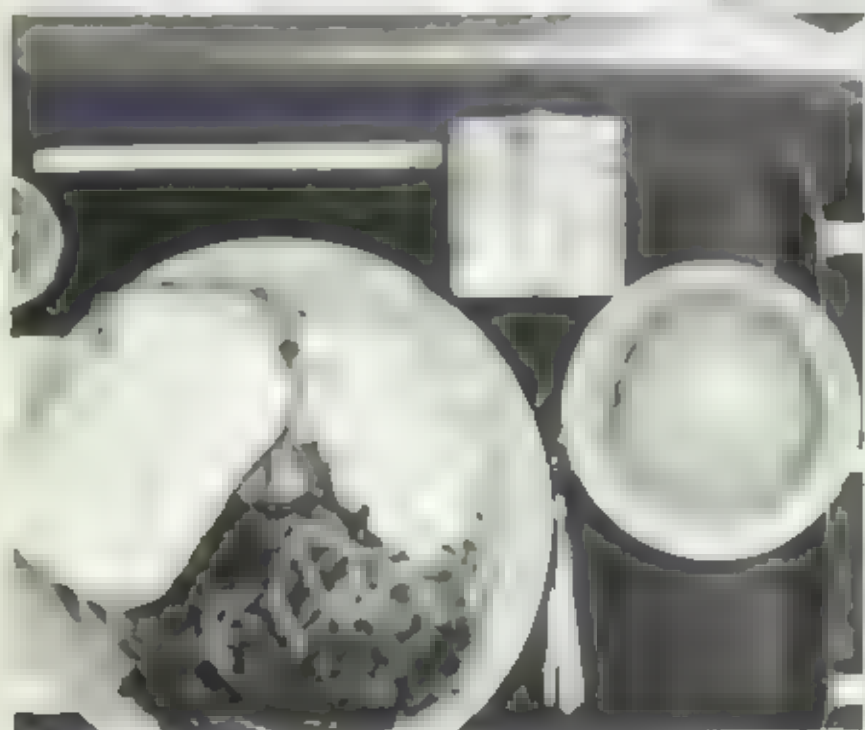

We go as
seniors ...

... and through the years we
have studied and grown ...
(some more than others)

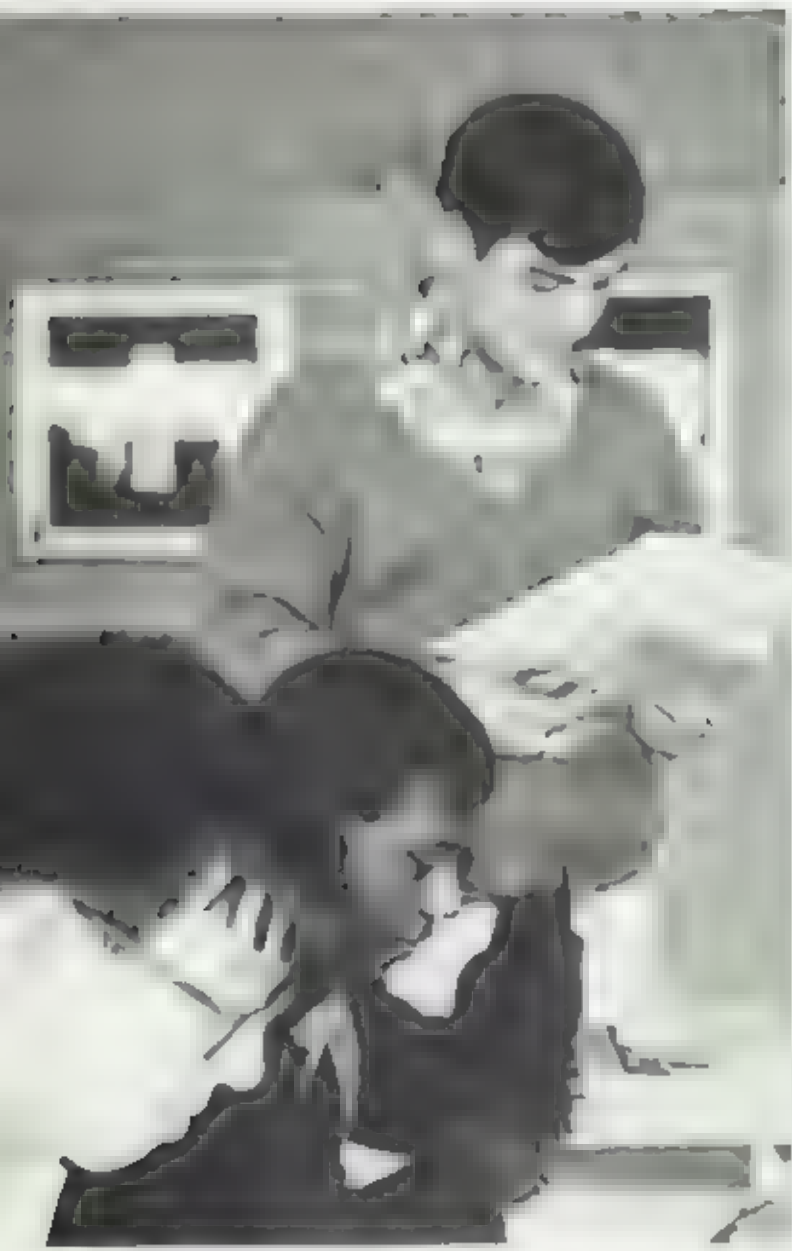

We grew in .

living and working together

democratic techniques

knowledge of other peoples

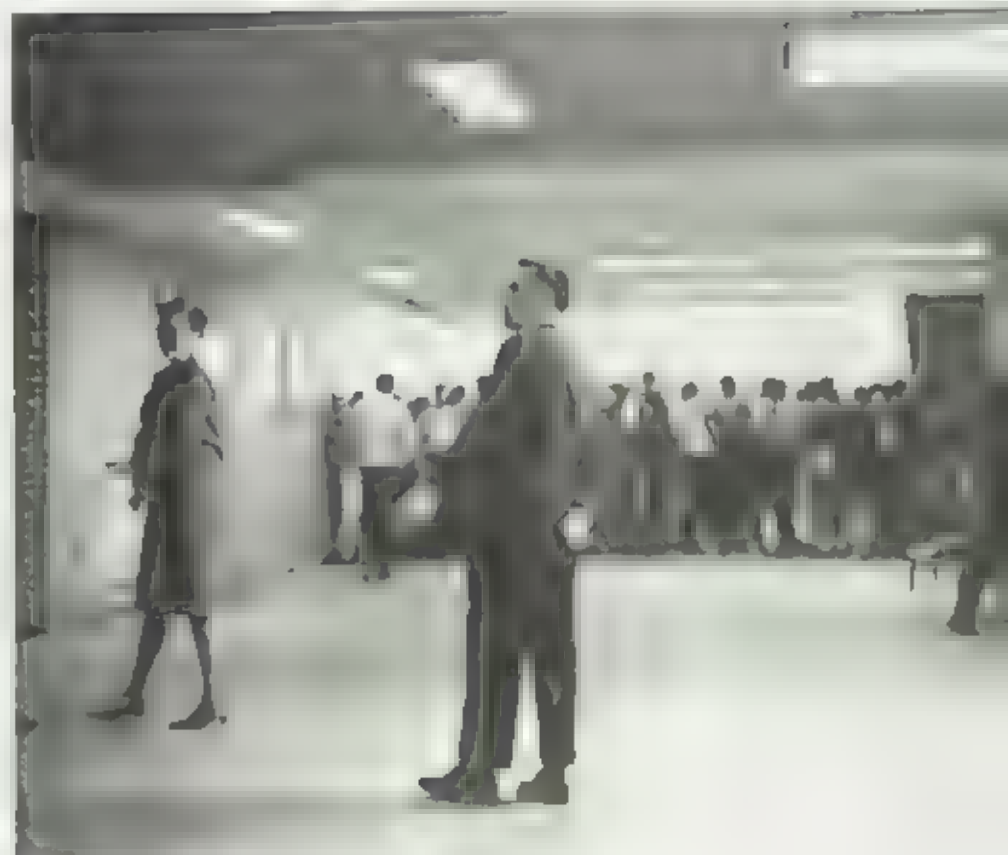

This is a very rich picture of me. I have enjoyed this class very much. It was one of the best English classes I ever took. I am sure I will use many of the study skills I learned here.

Faculty and students
worked together . . .

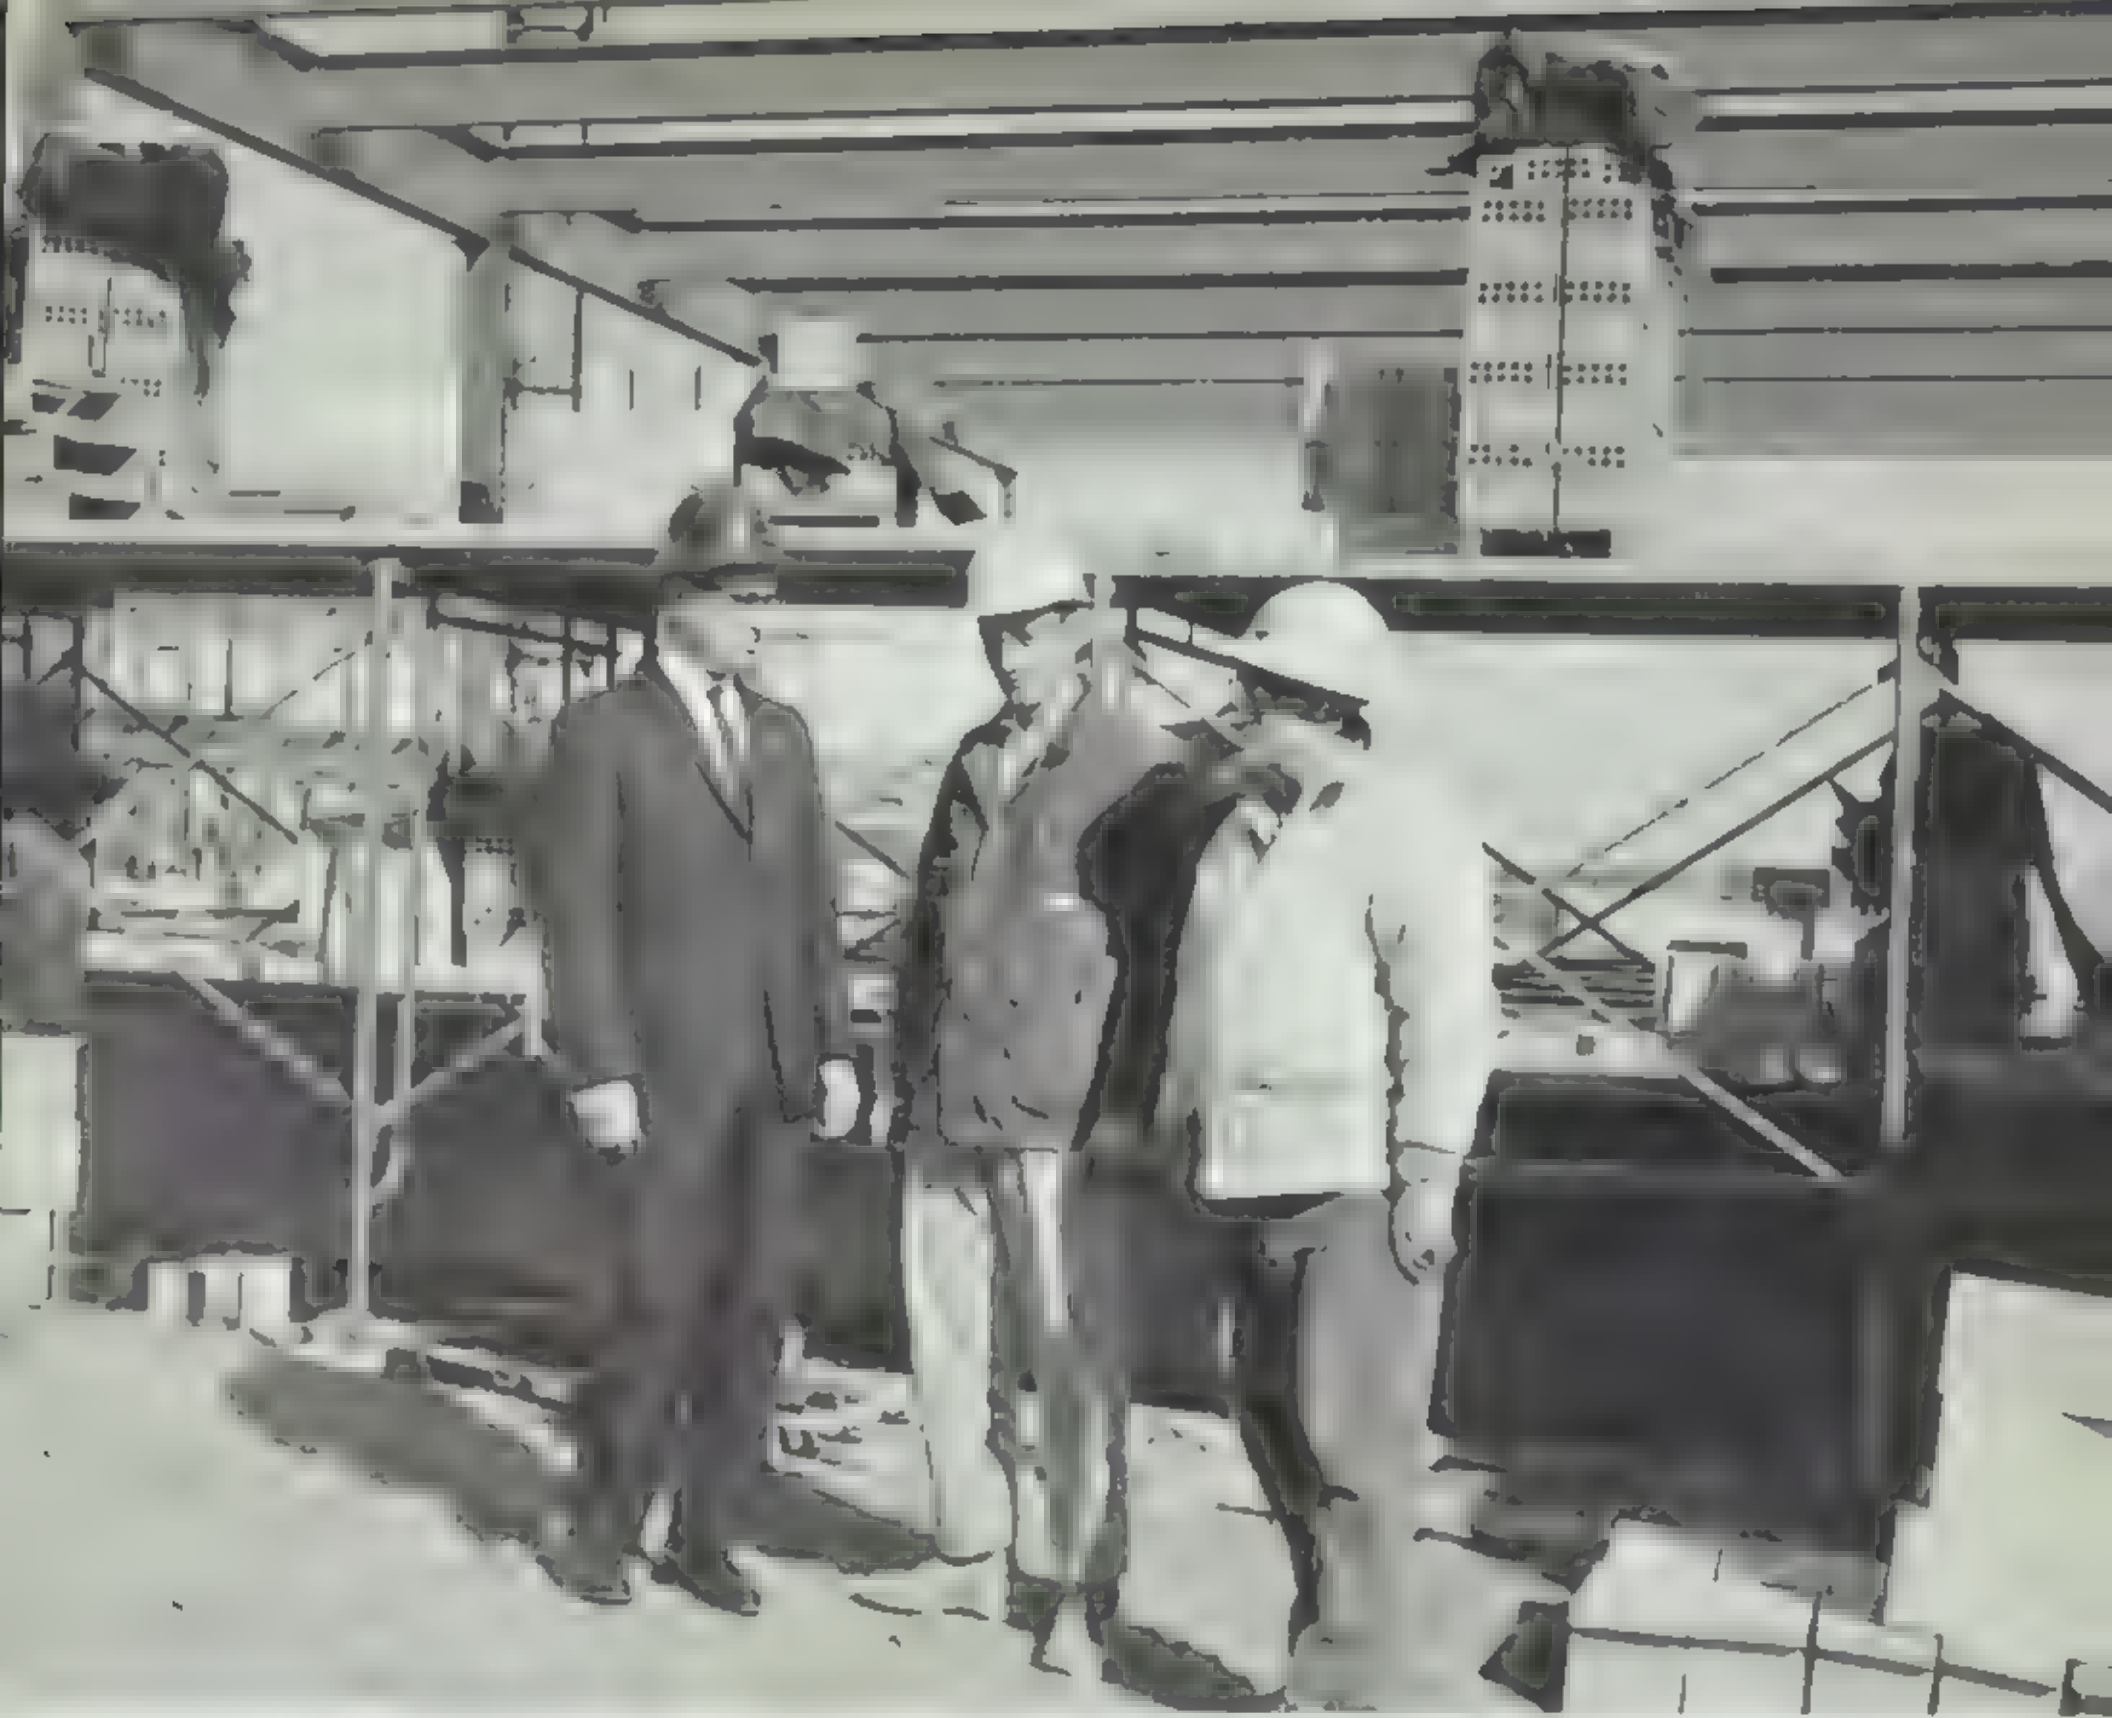

in the halls . .

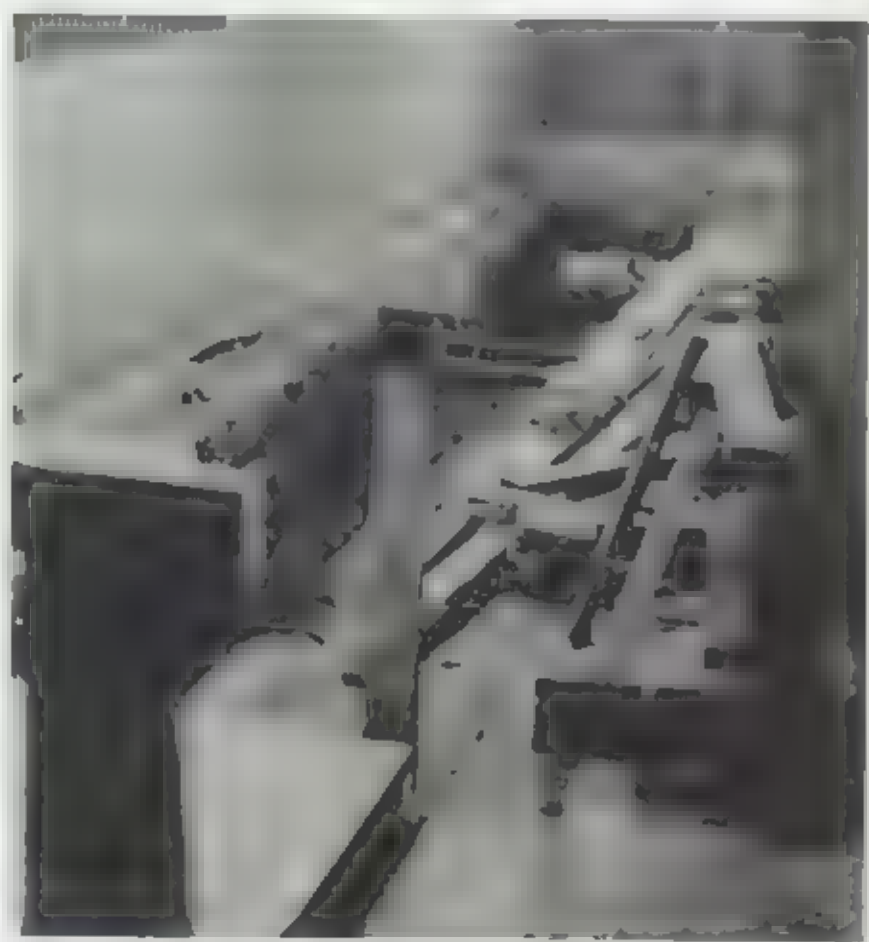

in storerooms . . .

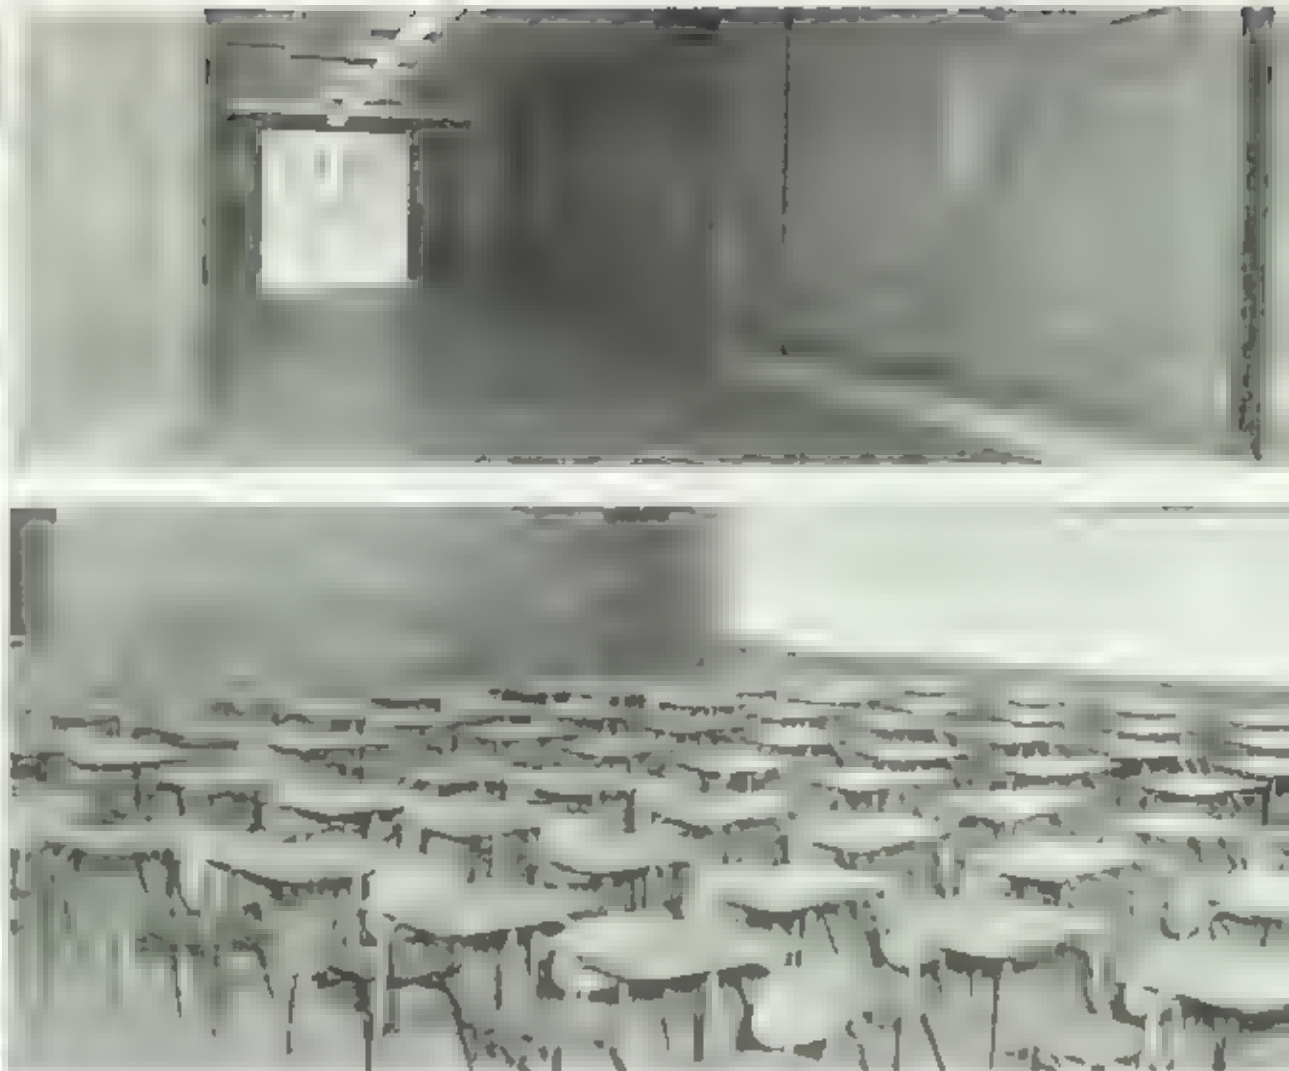

each lending his own talents

We grew in numbers . .
So our building started to grow too

... a network, a web of steel and brick

that we moved into in February of 1966

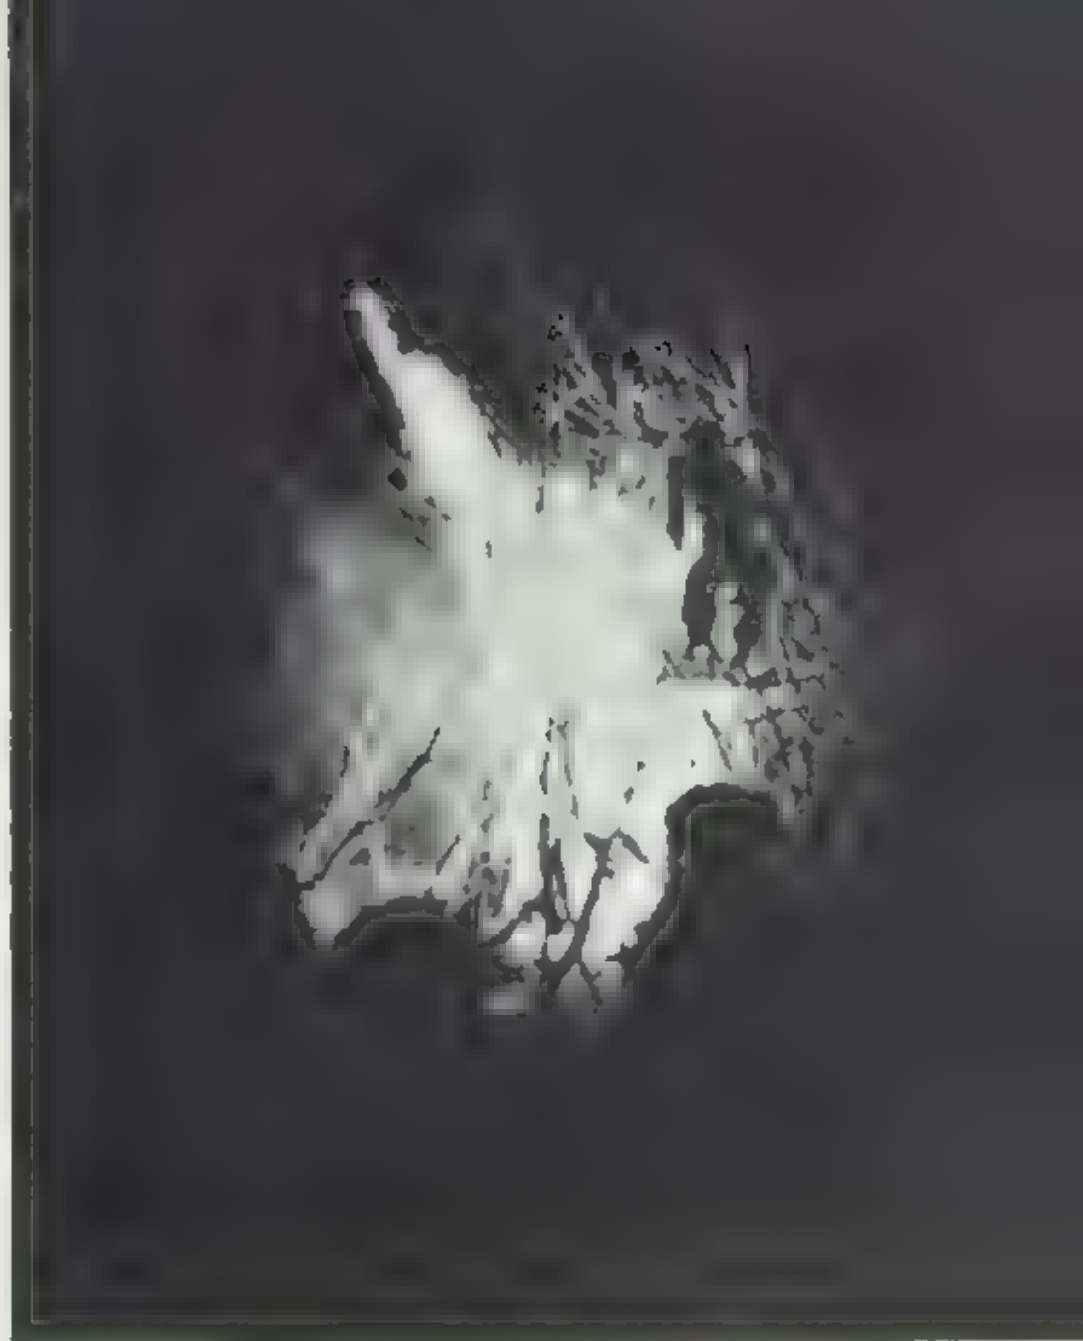

We remember many things: a Junior Prom
bonfires ... a sports night ... awards assemblies
student teaching

Many of us have been in school together since elementary days ... now the circle is complete ... but we will remember ... we will always remember and, we hope, continue to grow for all of our lives

Hello,

I know that it would be almost impossible for me to explain to somebody how much my year here at Niskayuna has meant to me. I have learned so much, not just from my studies but also from living in a different country. Still I think, though, that I will not understand how much I really have benefited through this year until I have been home for a couple of years. Then I might be able to see everything in its own proportion and appreciate Niskayuna to its fullest extent

Dear Mrs. Messeri

This year is one of the most great a - had I will remember for a long time, you are a very nice friend, and a good teacher, I thank you so much because you were helpful to me in to learn English. *Lupita*

Dear Friends of Niskayuna.

I am very glad to have the opportunity through this yearbook to thank all the students, teachers, and administrators of Niskayuna High School; particularly the Senior Class of '66

I'm sorry to say that this year went too fast; however, I was able to learn much of your way of life and your school system. I learned a lot and found advantages on both sides

I felt privileged to have been able to live for a year with the Yeater family. I was very fortunate

Also I would like to thank the Niskayuna Rotary Club for its wonderful hospitality. It is by this world organization that I was able to spend a year in the United States

Pretty soon I will return to Mexico but I am not going alone; I will take in my heart with me the memory of all those days and the wonderful times I was having in our beloved Niskayuna High School.

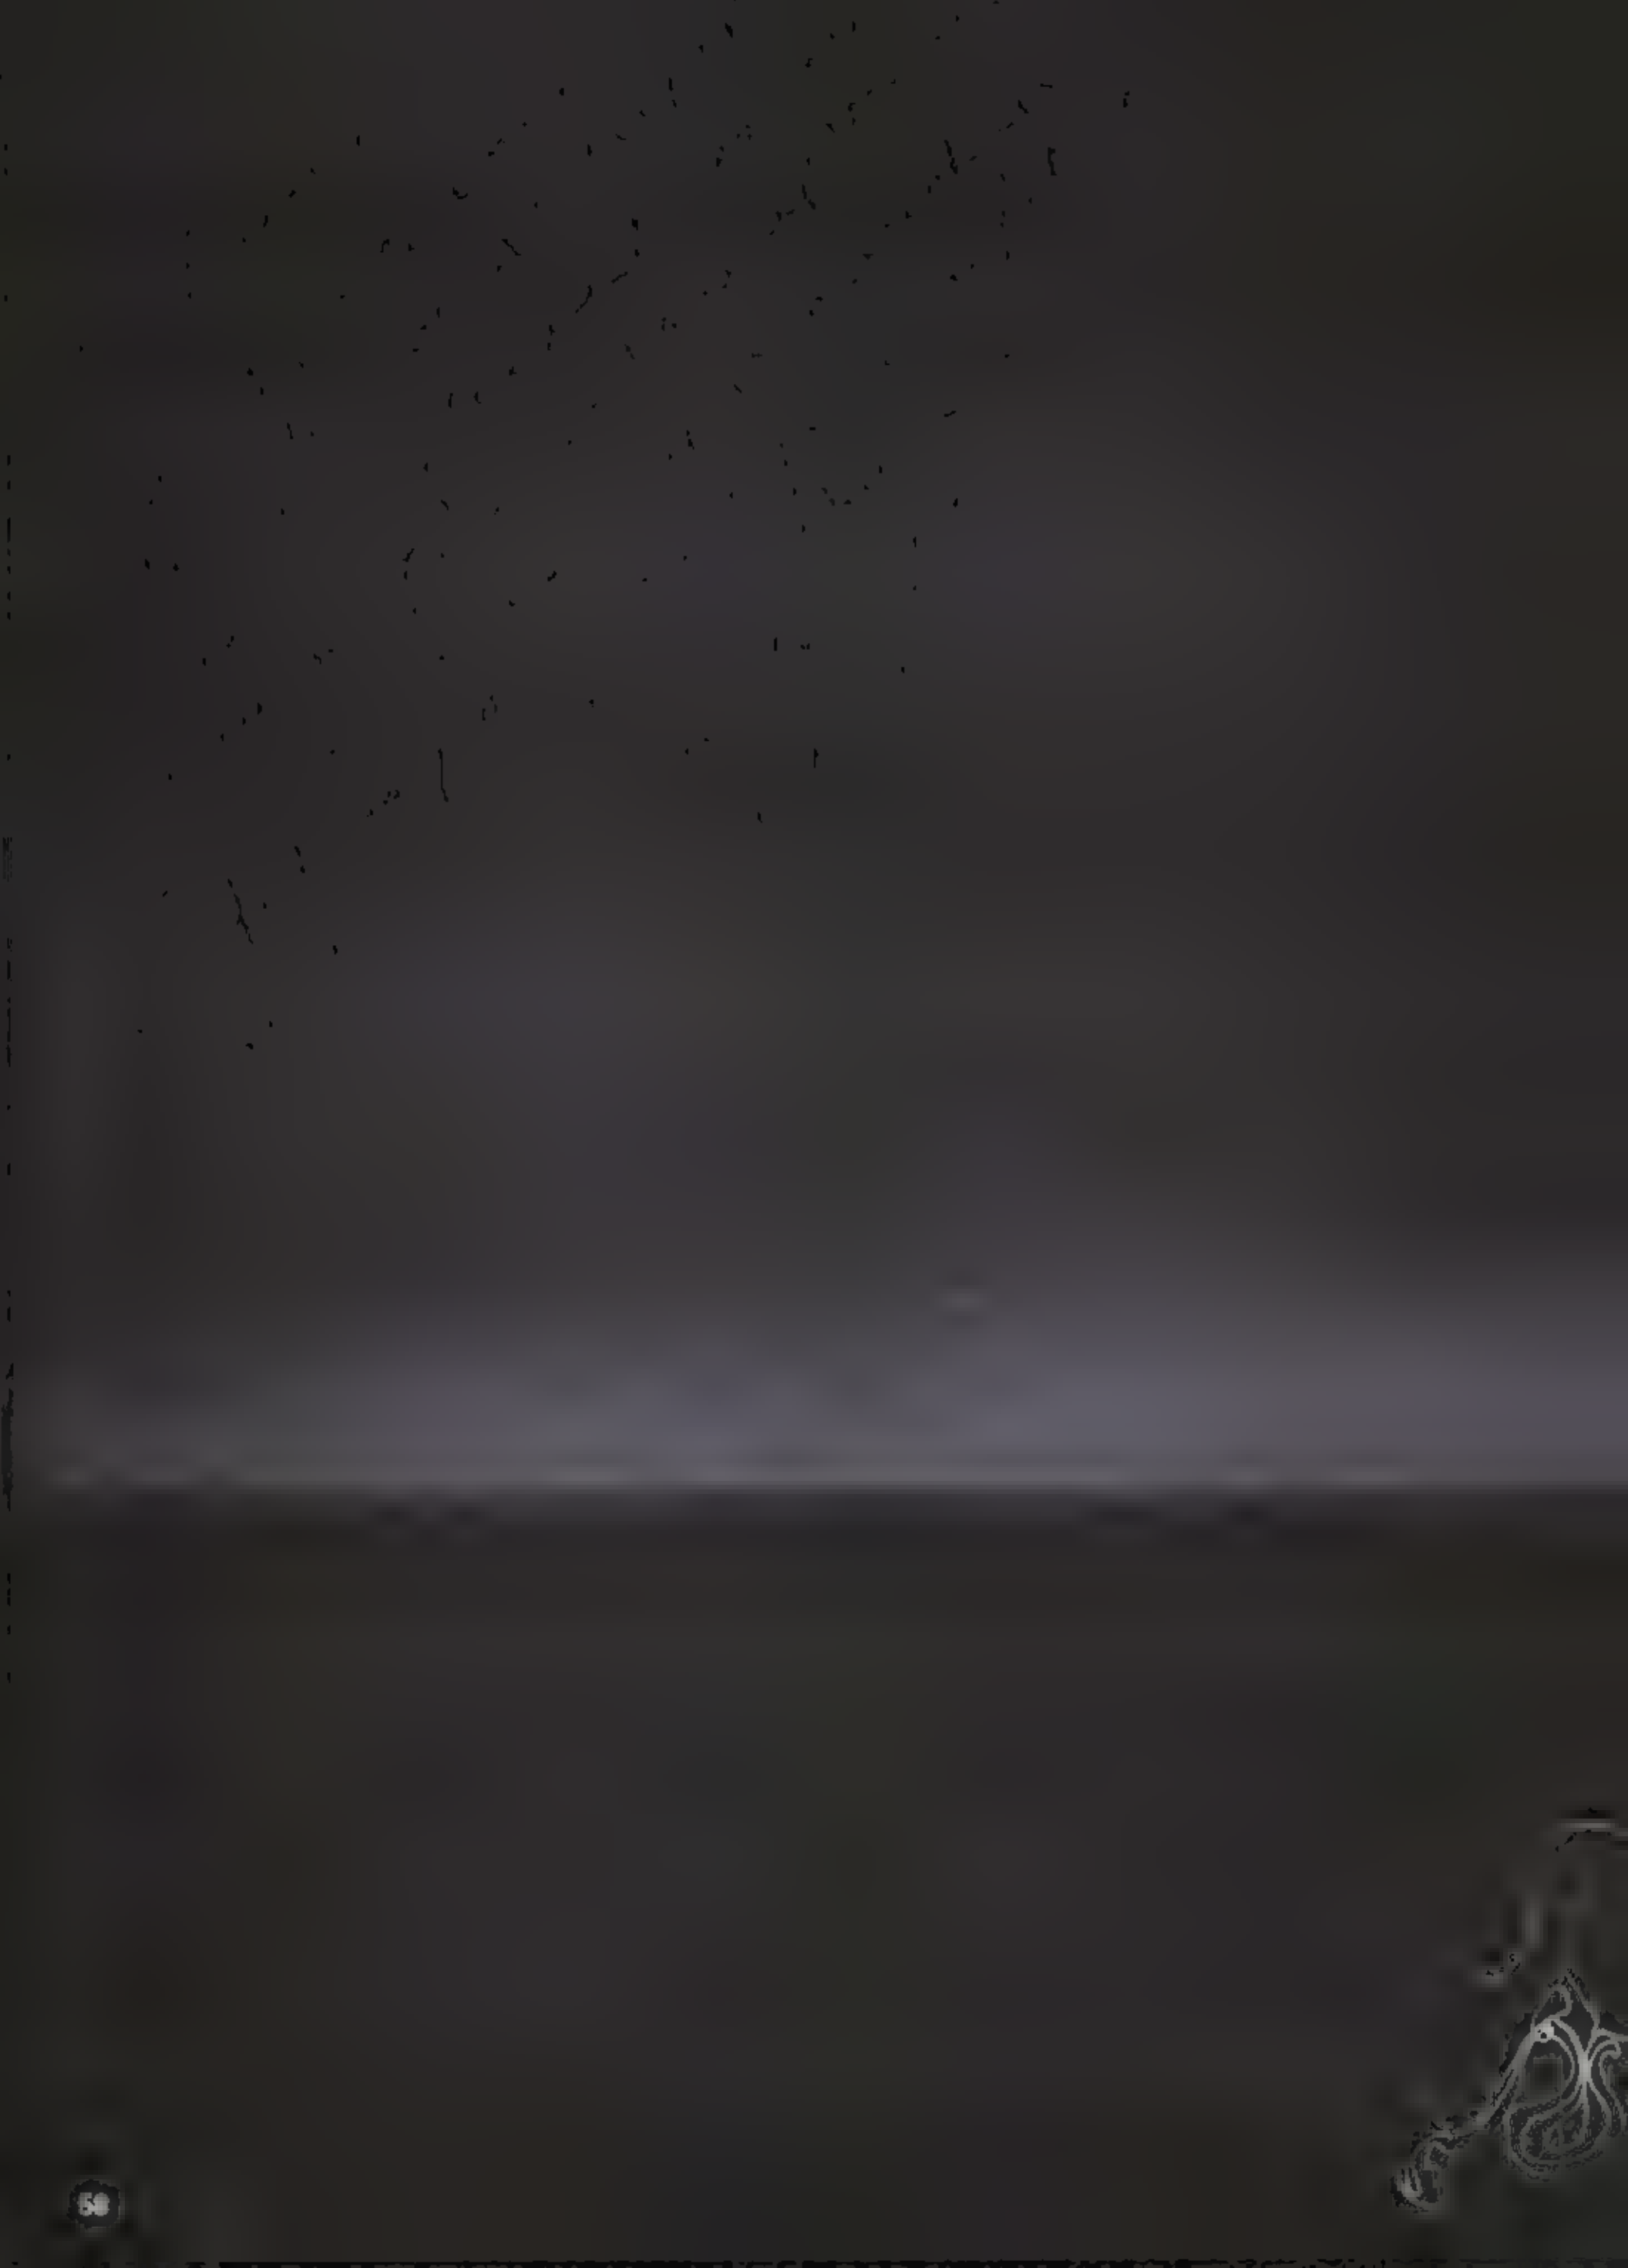

This year has been one of the nicest experiences in my life. If I ever have the chance in the future to visit the United States again, I will certainly come

ON SATURDAY, MAY 17th

... being we must

... H...

This was the year for the building of the school which was, eventually, for \$2,400 under a new house plan in the fall. The year has been stupendous and we are still without any relief from the nearly completed rooms.

$\mathcal{L} = \mathcal{W} + \mathcal{V}$ and $\mathcal{V} = \mathcal{V}_1 + \mathcal{V}_2$ with $\mathcal{V}_1 = \mathcal{V}_1^{\text{reg}}$ and $\mathcal{V}_2 = \mathcal{V}_2^{\text{reg}}$. The regularized loss functions $\mathcal{V}_1^{\text{reg}}$ and $\mathcal{V}_2^{\text{reg}}$ are defined as follows:

$$\mathcal{V}_1^{\text{reg}}(\mathbf{w}) = \frac{1}{2} \|\mathbf{w}\|_2^2$$

$$\mathcal{V}_2^{\text{reg}}(\mathbf{w}) = \frac{1}{2} \|\mathbf{w}\|_1^2$$
 where $\|\cdot\|_2$ and $\|\cdot\|_1$ are the L2 and L1 norms, respectively. The regularized loss functions $\mathcal{V}_1^{\text{reg}}$ and $\mathcal{V}_2^{\text{reg}}$ are used to regularize the weights \mathbf{w} and \mathbf{v} in the model.

Mrs. Russell,

It's been great knowing you for an English teacher. I've learned a lot of new things from you. Don't forget the combination of "Heaps and Thomas" - I have brought it & completely enjoyed this year & appreciate your teaching. I am grateful for all you've taught me. Also don't forget the combination of "Beth and Anne" (at times it had seemed hectic but in the end we learned a awful lot from you. I was lucky to have such a wonderful person for a teacher.

Daddy Heaps
P.S. Come
Swimming some
time!

Mrs. Russell,

The end.

I considered it a privilege to be in your class this year. I admire your high ideals and methods of teaching. I hope to have a teacher as nice as you next year. Have a nice summer!

Diane Patterson

Thanks
for a great year

Go Mrs Russell
Go a real nice ~~person~~ person who I real
like I hope that I will have her with
you. A lady who always knows what
I do, never can find out what she does. So
has been fun this year and I have learned
a real lot about everything. Hope you have
a real nice summer and improve your
golf. I will play you some day.

Alas

P.S.
I will give you a
couple of strokes for
the day and still bet
you. Thank you for helping
one in English 94A. See you
this summer.

Mrs. Russell -
 very thank you
 such much for
 and interesting
 of English said a thing all
 year, I enjoyed our English
 class very much. I'm sorry
 our 10th class didn't turn out
 like the one last year and is
 were a bit disappointed in
 us. But of luck always in
 especially with your 10th classes
 next year!
